

# Impulse Heat Banner Welder FMQP

## Banner Welder

Unique impulse heating technology makes the machine even more power save.

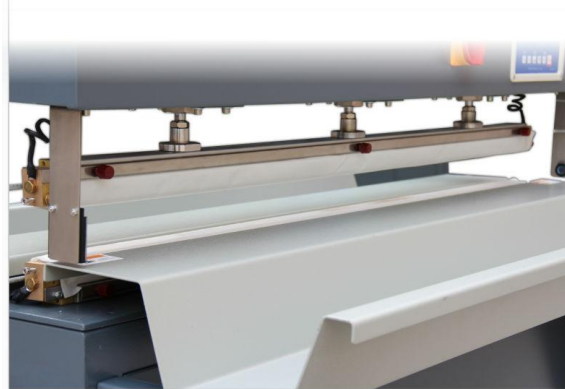

## Multiple security protection

With safety sensor, support slot, emergency switch and first drop low pressure design.

## Sealing bar

driven by pneumatic cylinder which provide a equal stress of sealing

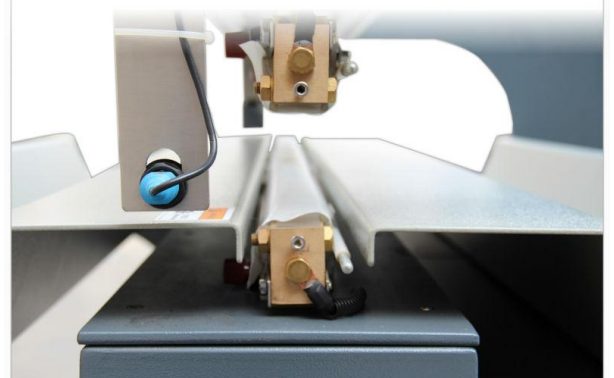

## Operating system

Nine memoried program, heating and cooling time set.

## Brass heating piece and safety sensor

# Impulse Heat Banner Welder FMQP

## Description

Pneumatic heat impulse action, fast sealing process convenient with simple operation, accurate sealing & cooling time adjustments. stable & uniform pressure. built-in safety features, CE approved specially suits the printing & advertising industry for vertical in-house operation & fast turn-around this banner welder machine is horizontal and applicable for the sealing of empty large packaging bags or extra-length plastic bags with a convenient and simple operation. extra length for the sealing can be ordered. it is especially applied in packaging bag factory.

## Parameter

Model	FMQP-1200/2	FMQP-2500/2	FMQP-3000/2	FMQP-4000/2	FMQP-5000/2
Power	220V,50HZ,1PHASE	220V,50HZ,1PHASE	1 or 3 PHASES	3 PHASES	3 PHASES
Voltage	2500W	5000W	6000W	8000W	10000W
Air Source	0.6MPa	0.6MPa	0.6MPa	0.6MPa	0.6MPa
Sealing Length	1200mm	2500mm	3000mm	4000mm	5000mm
Sealing Width	5mm/8mm/10mm	5mm/8mm/10mm	5mm/8mm/10mm	5mm/8mm/10mm	5mm/8mm/10mm
Size	1390*1120*1250	2700*1120*1250	3200*1120*1250	4190*1120*1250	5190*1120*1250
Weight	360kgs	620kgs	700kgs	860kgs	1020kgs
