

LASER ENGRAVING MACHINE

SPECIFICATIONS

Model	NIKA 6090 ST		
Processing area	600*900mm		
Laser tube	80W CO2 Tube		
Engraving speed	0-30000mm/min		
Cutting speed	0-3600mm/min		
Software	CorelDraw		
Port	USB 2.0		
Minimum character	Letter 1.0 x 1.0mm		
Support graphic format	AI, BMP, DST, DWG, DXF, DXP,		
Resolution ratio	0.005mm		
Scanning Precision	1000DPI		
Power supply	220V±10% /50HZ , 110V±10%/60HZ		
Focus	Red eye focus		
Applications	Acrylic, Glass, Leather..nonmetal materials		
Laser tube's life	5000 hours	Packing Weight	150KG
Up-down	0~300mm(Electrical)	Packing size/Charge weight	152*100*75cm
Water thermometer	Yes	Delivery Time	45 Working days after payment received

QUOTATION

Standard Configuration						Optional Parts	
Honey table	Air pump	Industry chiller CW3000	Electrical Up-down	Rotary platform	With Stand	Upgrade to 100W	CW5000
√	√	√	√	√	√	+500 ЛВ	+500 ЛВ

SPAREPARTS WE USE

Rotary for free	Reasonable space	Security socket & leakage protection	Professional Factory
Rotary fixed under working table 			

Warranty

Mainboard	12 Months
Motor/air pump/water pump	12 Months
Tube	6 Months
